The 30 hottest companies of the year, according to LinkedIn

Allana Akhtar Apr. 3, 2019, 2:54 PM

Google's parent company Alphabet topped LinkedIn's annual ranking of the most popular companies job seekers want to work for. Shutterstock

Despite a rocky year for big tech firms, which included major Facebook data leaks, Alphabet's \$90 million exit package for sexual misconduct, and Amazon drawing ire from lawmakers and activists over its HQ2 search — job seekers remain unphased. Amazon fell from the top spot in 2018 to number 3, while Alphabet and Facebook moved up one spot from last year to 1 and 2, respectively.

Read more: [Here's how much male and female American workers earn at every age](#)

Besides tech behemoths, job seekers also expressed interest in working for media companies like The Walt Disney Company and Comcast NBCUniversal, and financial firms like Bank of America and Goldman Sachs.

Private companies that made the list for the first time include hospitality firm WeWork, which recently rebranded as We Company, and cloud-based services company Slack.

Here are the 30 companies Americans want to work for the most, according to LinkedIn:

30: PwC: An accounting company headquartered in London, England.
